REVLON[®]

Revlon, was founded in 1932 by Charles Revson and his brother Joseph, together with Charles Lachman who contributed the 'L' in the brand name 'REVLON'

Starting with a single product - nail enamel - the three founders pooled their resources and developed a unique manufacturing process using pigments instead of dyes for Revlon nail enamel.

This became a success because Revlon was able to offer women rich looking, opaque nail enamel in a wide variety of colour shades never before available.

In only six years the company became a multi-million dollar organisation, launching what was to become one of the most recognised cosmetic names around the world.

From its base in America, Revlon has become one of the strongest consumer brands in the world market with its high quality, innovative products and marketing expertise and is sold in over 175 countries and territories.

As a world leader in cosmetics Revlon provides women with products that make them feel beautiful, confident and spirited. The Revlon eyewear collection was developed using the best colour, style and technology to bring to women the ultimate beauty accessory.

The styles are a natural compliment to make-up and the forms and colours enhance beauty, individuality and personality.
